# UNTERMYER'S PLANS DIVIDE COMMITTEE

Lockwood Housing Probers Not United on Wisdom of Proposed Laws.

LOBBY SURE AT ALBANY

Even Members on Fence as to Dispersal of Fire Insurance Profits.

USURY REPEAL DOUBTFUL

May Rely on Meyer Inquiry to Deal With Grafting in City Contracts.

With Samuel Untermyer, chief counwith Samuel Untermyer, chief coun-sel and mainspring of the Lockwood SWIFT JUSTICE IN legislative committee investigating housing, only one day out on his voyage to Europe, rumblings of dissention among members of the committee already were being heard yesterday form, nor are they audible enough to determine just how deep the rift may Yet they are such as to indicate that Mr. Untermyer may have exaggerated in his own mind the degree of unanimity with which the committee members will support his various Nassau county announced yesterday

value regulated by the law of supply and \$4.50 in cash.

Mr. Weeks said yesterday he would and demand. It is known that Senator Lockwood and a majority of the committee do not agree with his view. They agree with him that the spirit of the law is freely evaded by the simple process of borrowers incorporating, but hold that the repeal of the existing laws would aggravate rather than relieve conditions shown to exist in the mortgage loan market.

Another point upon which Mr. Untermyer was most emphatic was the urging of legislation that would compel large fire insurance companies to apply the income derived from the enormous surpluses which the State law requires they shall keep for emergency purposes to a reduction of premiums. Mr. Untermyer holds that this income, which in the case of ten or a dozen of the

large companies doing business in New COMET ENDS ITS VISIT: in the case of ten or a dozen of the year, actually belongs to the policy -not the stockholders.

#### May Form Powerful Lobby.

This is one of the points also upon on the committee of underwriters

Mr. Untermyer has also recommended a sweeping investigation into the whole conduct of fire insurance companies, their rates, investments, surpluses, &c., along the lines of the Armstrong committee's investigation of the life insurance companies that resulted in Charles E. Hughes being elected Governor of New York. In the private sessions the committee will hold in Mr. Untermyer's absence the wisdom of recommending

New York. In the private sessions the committee will hold in Mr. Untermyer's absence the wisdom of recommending such an investigation in the near future will be debated. It has been discussed aiready, but only in an informal way, and such views as members expressed have been tentative merely.

It is a fact, however, that while some of the members are anxious to see such an investigation undertaken, others hold that it is beyond the function of a housing committee to make any such recommendation, even in the face of evidence of stock gambling and security juggling by the stock fire companies.

Divided on City Contracts.

Another subject upon which the committee is not unanimous is Mr. Untermyer's recommendation for a change of the law regarding city contracts that would permit the city to take over a defaulter's subcontracts instead of autor.

Another subject upon which the committee is not unanimous is Mr. Untermyer's recommendation for a change of the law regarding city contracts that would permit the city to take over a defaulter's subcontracts instead of automatically releasing the subcontractors, only to engage in new contracts at a greatly increased figure, as was done in the case of the Cumberland Street Hospital.

## RAIL TRAFFIC RUSH SHOWS PRE-WAR NORMALCY BACK

City People Swarm to Country and Suburbanites Jam City, With Travel Abroad Reaching High Figure-Trains to Beaches Are Overflowing.

According to the latest statistics available yesterday at the Grand Central station more city folk are going to the country this summer and more country folk are flocking to the city than ever before. If railroad travel is an index to prosperity the United States is back to prewar normalcy and about three jumps ahead.

Despite an increase of approximately 20 per cent. in railroad fares traffic never has been so heavy at this time of year, railroad men said. The big rush however, is still to come. It is expected that all records for outward bound vacation travel will be broken this week.

Mountains, seashore, lakes, beaches, European tours or week ends at Rockaway—it's the same story everywhere. Every railroad leading out of New York to is carrying tons and tons of luggage. The baggage agent at the Grand Central station said the number of persons from the West who are going abroad this year is three times greater than last year.

Twice as many campers have gone to Maine and Canada so far, he said. The express company has doubled its force and is working on an overtime schedule. Indictment Seen This Week Brooklyn Policeman Finds Fellow Patrolman Just in Time to Save His Life.

District Attorney Charles R. Weeks of recommendations when they appear as recommendations when they appear as proposed legislation at Albany.

For instance, Mr. Untermyer, in a closing statement, strongly urged the immediate repeal of the usury laws, on the ground that they were obsolete, that money was a commodity and its the law will move swiftly in the law will move swiftly in the law dilding to the murder of Mrs. Minnie S. Bartlett in the large house where she lived alone on the outskirts of Hempstead, L. I., In his confession Kubal said his motive was that money was a commodity and its two old watches, which he sold for \$11, and \$150 in cash.

Nassau county announced yesterday Glendale station made three rescues. The star witness so far as the one of another policeman, in a fire yes-terday in the apartment of Samuel Rosenbaum, over Rosenbaum over Rosenbaum, and called Patrolman Frank Beck and Harry Lichtblau, a probationary officer. All three went into the burning apartment, and Grandser selzed Minnie Rosenbaum, 6 years old, and carried her out followed by Rosenbaum and Carried her out followed her foll

her out, followed by Rosenbaum and two other children, Max, 19, and Isidore, 14.

Mrs. Rosenbaum attempted to escape to the roof and fell from a ladder, breaking her left leg. Beck, hearing her cries, went to get her and was overcome by smoke. Patroiman Grandser, who had returned and was making a thorough search of the building, found the woman and Beck lying at the foot of the ladder.

He carried Mrs. Rosenbaum to the

of the ladder.

He carried Mrs. Rosenbaum to the street and then rescued Beck. The flames by that time had gained headway in the hall and the smoke was dense. Mrs. Rosenbaum and Beck were taken to Wyckoff Heights Hospital.

Lichtbiau's left hand was burned and his legs were bruised in his efforts to ald Beck and Grandser. Isadore Rosenbaum received slight burns of the left

The policemen had finished their work of rescue before the firemen arrived. The interior of the apartment was wrecked and the damage was estimated at between \$20,000 and \$25,000, including that to the store.

the matter of city contracts is one which some of the members believe will be sone into pretty thoroughly by Senator Schuyler M. Meyer's committee.

On this matter the political lines of the New York city members of the Lockwood committee are more clearly drawn than appearances at the public hearings would indicate.

On other points, such as legislation are feeting the rate making organizations in the fire insurance business: vesting in the Superintendent of Insurance and in the courts the power of review of rates, which the insurance men have agreed to support, the committee is in general accord.

It is unanimous also in its desire to enact such legislation as will assure the admission of mutual companies to the New York field on an equal footing with the stock companies; for the establishment of mutual companies to the New York field on an equal footing with the stock companies; for the establishment of mutual companies to the first operation of the single stock of the stock scannel in the stock fire companies.
